Summary

Computer Science Engineering student with a strong foundation in Python, Java, JavaScript, and MySQL. Experienced in building responsive web applications and working with RESTful APIs. Possess good knowledge of frontend development, along with strong problem-solving skills.

Education

Dr. Ambedkar Institute of Technology <i>B.E. in Computer Science & Engineering (CGPA: 8.69)</i>	Bengaluru 2022 – 2026
Shubhodaya PU College, Gubbi <i>Pre-University (PCMB) - 95.5%</i>	Tumakuru 2020 – 2022

Technical Skills

- **Languages:** Java, Python, JavaScript
- **Frontend:** HTML5, CSS3
- **Backend:** Flask
- **Database:** MySQL,
- **Concepts:** OOP, Data Structures & Algorithms, Operating Systems, Computer Networks
- **Tools:** Git, GitHub, VS Code,

Projects

Smart Voice Activated Farming Assistant	MERN Stack
– Developed a voice-enabled web application providing crop and fertilizer recommendations. – Designed and implemented REST APIs using Node.js and Express.js. – Stored and retrieved data using MongoDB database queries. – Integrated weather-based recommendations and automation features. – Implemented voice input processing using basic NLP concepts.	
Weather Web Application	HTML, CSS, JavaScript
– Developed a responsive weather web application using HTML, CSS and JavaScript. – Integrated OpenWeather REST API to fetch and display real-time temperature and humidity. – Implemented dynamic DOM manipulation and error handling.	
Hand Gesture Brightness Controller	Python, OpenCV
– Built a computer vision system using Python and OpenCV. – Implemented real-time hand tracking and gesture recognition. – Automated system brightness and volume control based on gestures.	

Relevant Coursework

Data Structures, Operating Systems, Database Management System (DBMS), Computer Networks

Certifications

- Fundamentals of AI Concepts – Microsoft Learn
- Python for Beginners – Simplilearn
- JavaScript for Beginners – Simplilearn

Languages

English, Kannada
